PROFESSIONAL SUMMARY

6th-semester Informatics Engineering student with a **GPA of 3.84/4.00**. Specialized in mobile and web development with strong proficiency in **Java (Android Studio), PHP, Python, and Frontend Technologies (HTML5, CSS3, JavaScript)**. Experienced in managing the full **Software Development Life Cycle (SDLC)**, including comprehensive Software Engineering (RPL) documentation and Quality Assurance testing. A detail-oriented individual with a proven track record of high academic excellence and practical project implementation.

EDUCATION

IIB Darmajaya | Bachelor of Informatics Engineering 2023 – Present

- **GPA: 3.84 / 4.00**
- **Academic Excellence:** Achieved Grade A in core technical subjects: Mobile Programming, Database Technology, Software Quality Assurance, and Data Science.
- **Relevant Coursework:** Advanced Mobile Programming, Artificial Intelligence, Digital Forensics, and UI/UX Design.

TECHNICAL PROJECTS

Mobile Application Development | *Android Studio, Java, MySQL*

- Developed and implemented Android-based applications using Java and MySQL database integration within Android Studio.

Software Engineering (RPL) Full Project | *SDLC, UML, QA*

- Managed end-to-end software documentation, including requirement analysis, system architecture design using UML diagrams, and testing protocols.

Web Development & Data Analysis | *PHP, Python, HTML5, CSS3, JavaScript*

- Built responsive web systems using PHP, Python, and modern web standards (HTML/CSS/JS).
- Performed data processing and visualization to support decision-making.

TECHNICAL SKILLS

- **Programming Languages:** Java, PHP, Python, **JavaScript (ES6+)**, C++, SQL.
- **Web Technologies:** **HTML5, CSS3**, Bootstrap, UI/UX Design Basics.
- **Tools & Platforms:** Android Studio, VS Code, MySQL, Git, Canva.
- **Competencies:** Software Quality Assurance (QA), SDLC Management, Mobile & Digital Forensics.

ORGANIZATION & CERTIFICATIONS

- **Informatics Student Association (HIMA TI) Darmajaya (2023 – 2025):** Contributed to IT community development programs and campus-wide technology events. Enhanced team coordination, technical communication, and collaborative problem-solving skills.
- **Data Analysis & Visualization** – Skill Academy by Ruangguru (2023).
- **Introduction to Digital Mindset** – KOMDIGI (2025).
